Health and Safety Policy

It is the Policy of PGR Construction to effectively manage their undertakings in such a way as to ensure the health, safety and well-being of its employees, contractors and others.
This will be achieved by compliance with the requirements of relevant European Directives, the Health and Safety at Work etc., Act 1974, the Management of Health and Safety at Work Regulations 1999, the most current construction and non construction related legislation and any relevant standards or best practice guidance notes. However, these standards and legislation will always be seen as the minimum to be achieved and we will strive to operate above and beyond those standards.

The Directors are committed to ensuring that health and safety remains a high priority by the continuous development of its safety culture.

Policy implementation is the responsibility of all directors, especially the directors, who will oversee strategy and the day-to-day management of health and safety within the company .

Compliance with the Health and Safety Policy and procedures is deemed as an absolute minimum and all employees are responsible for this and also for committing to continuous improvement.

PGR Construction has a dedicated Safety and Environmental Team to assist and advise employees in the management of health, safety and welfare.

We will identify significant hazards and plan for their elimination, reduction and control by conducting risk assessments at regular intervals, the results of which will be communicated to our employees.

Communication between all levels of employees within the Company is paramount and we will therefore ensure that there are adequate arrangements in place to permit the flow of information both to and from employees.

All employees and sub contractors are expected to co-operate with us in carrying out our statutory duties outlined in this policy and must ensure that their own work, so far as is reasonably practicable, is carried out without risk to themselves or others.

This policy will be displayed prominently or made available at all sites and workplaces under the control of PGR Construction.

Our policy will be regularly monitored, reviewed and updated at least once per annum to reflect any changes in legislation or in light of any changes in our activities or procedures and any updates will be brought to the attention of our employees.
